

Major Issues

- Clinical support (therapist inclusion/time)
- Attrition issues
- Comparison groups (what should they be? What could be better?)
- Why control groups get better (not unique to II)
- Cost issues
- Measurement issues (i.e., diagnostic testing, online or ftf, common)
- Dissemination issues (individual help vs. public health needs)
- Commercialization
- Stepped care (various definitions)
- Deconstruction studies (critical ingredients of applications, what are they?)
- Rating of sites / rating of providers
- Need to further the science (models/theory, research needs)

Administrative Issues

- Registration form
- MedNet
- Formalization of group
 - Create membership, by laws, fees?, etc
- Website
 - How to best use
 - Presentations
- Distribution list
- Next meetings (US? When?)
