ISRII

12TH SCIENTIFIC MEETING OF THE INTERNATIONAL SOCIETY FOR RESEARCH ON INTERNET INTERVENTIONS (ISRII)

UNIVERSITY OF LIMERICK, IRELAND
JUNE 2-5, 2024

isrii.org/meeting/limerick2024/

The International Society for Research on Internet Interventions (ISRII) and ISRII Limerick 2024

ISRII is a non-profit organization of eHealth researchers, clinicians, and developers established in 2004 to support the creation, evaluation, and dissemination of effective web-based programs for treating behavioral and mental health conditions (*isrii.org*). Since its founding, the Society has held 11 scientific conferences that each attracted a global community of investigators. Over 400 registrants from 38 countries attended ISRII's 9th Scientific Meeting in Berlin, Germany (October 12-14, 2017), 350 people from 27 countries traveled to Auckland, New Zealand to attend its 10th Scientific Meeting (February 13-15, 2019) and 339 people from 20 countries participated in our 11th Scientific Meeting (September 18-21, 2022).

Professors Van de Ven, Titov and Ritterband are working with the ISRII management company and local conference management teams to make the ISRII 12th Scientific Meeting an overwhelming success. Based on attendance at prior ISRII conferences, we project **at least 400 eHealth investigators** will attend ISRII12. As the link between researchers and companies is crucial to ensure scientific advances will result in real progress, treatment platforms and technologies will play a central role in the conference.

We now seek sponsorships to maximize the opportunity ISRII12 holds to showcase the important role of industry in internet interventions. Your involvement in ISRII12 will provide you with a unique opportunity to engage with ISRII12 participants and showcase your products and services. <u>Your generous sponsorship of ISRII12 will enable us to</u> defray registration and travel costs for junior faculty and trainees to attend and present their research and ensure participation in ISRII12 is affordable for all, also those from lower to middle income countries.

Thank you for your support.

Nick Titov, PhD
International Program Co-Chair, ISRII12
Macquarie University, Australia

Lee Ritterband, PhD
International Program Co-Chair, ISRII12
University of Virginia, USA

Pepijn van de Ven, PhD
Limerick Committee Chair, ISRII12
University of Limerick, Ireland
