SCIENTIFIC MEETING
September 21–23, 2027

VENUE
Aarhus University, Denmark

On behalf of the International Society for Research on Internet Interventions (ISRII), we invite you and your organization to be a part of ISRII's 15th Scientific Meeting, chaired by Kim Mathiasen, PhD, to be held at Aarhus University in Denmark, September 21–23, 2027. Pre-conference workshops will be held on September 20, 2027.

ISRII's 15th Scientific Meeting will bring together more than 400 researchers dedicated to improving global behavioral and mental health by harnessing digital tools. Attendees will include clinicians, developers, coordinators, economists, policy experts, and industry associates from more than 27 countries who work on digital tools & therapeutics for mental & behavioral health. Your partnership with the meeting will allow you to establish and develop long-term and valuable relationships with these leading digital health researchers, and to expand the reach and impact of tools that enhance behavioral, psychosocial, health, and mental health outcomes world-wide.

There are numerous opportunities to showcase your company's commitment to improving health and removing barriers to care through scientific innovation and the development of digital and communication technologies. Your investment in this conference will help support registration and travel for attendees, including those from low- and middle-income countries. If you don't see a sponsorship option that perfectly fits your needs, we would be delighted to work with you to craft a custom package that ensures both your organization and the ISRII meeting achieve their goals.
